

Welcome!

Child Development and Education

Our top mission while working with priority populations is to provide the most thorough and supportive resources in order to help our families work towards reaching their child's optimal growth and development, by offering them the necessary tools.

By compiling a list of programs, we guide each family through the process of accessing the resources which promote family literacy, social services, case management, etc.

We are able to refer families to local licensed family therapists, mental health professionals and many more services listed on this pamphlet.
